# ELEGANT, STYLISH & FUNCTIONAL SOLUTIONS

BELZ VANITY

**3+** Years Experience

**500+** Satisfied Clients

**30+** Countries Export

**50+** Product Range

A bathroom is a place where you can relax, have some quiet time, escape from the kids and enjoy reading a book in the bath or taking a nice cool shower. It forms part of our daily ritual, getting us ready for the day ahead or helping us wind down from the day that's been.

Whether we are brushing our teeth, washing our faces or singing in the shower, we are taking part in a soothing daily activity that makes us feel cleansed and refreshed. Which is why these rituals should take place in beautiful bathrooms that are as appealing as they are functional.

## OUR VISION

At Belz Vanity, we aim to be the leading innovator in luxury vanity design, offering products that seamlessly combine beauty and function. Our vision is to transform every space into a personalized sanctuary of elegance and comfort, making every home feel like a retreat with timeless, quality craftsmanship.

## OUR MISSION

At Belz Vanity, we are dedicated to delivering high-quality, stylish, and functional vanity solutions that inspire creativity and elevate every home. Through meticulous craftsmanship and exceptional customer service, we aim to enhance your living spaces with products that blend luxury with everyday practicality.

## OUR VALUES

We are driven by a commitment to quality, offering only the finest materials and craftsmanship. Innovation is at the heart of what we do, continuously evolving to meet the needs of our customers. Customer-centricity guides our approach, ensuring we deliver personalized solutions. We also take pride in our sustainability efforts, creating eco-friendly products that protect the environment for future generations.

BELZ
VANITY

## WHAT IS BELZ VANITY?

Belz Vanity isn't just about bathrooms. It's about adding a touch of modern luxury to everyday life. We believe every Indian home deserves beauty, strength and comfort that lasts. Our vanities are designed and made with care, using advanced injection moulding technology and high-quality plastic granules. Each piece is built to be strong, waterproof and classy, giving you a stylish and long-lasting alternative to ordinary materials.

## THE PROBLEM WE SAW

For a long time, bathroom vanities in India were made from materials that just couldn't keep up. PVC sheets and wooden HDMR boards soaked in moisture, cracked after a while and lost their charm. What was meant to be a space of comfort slowly turned dull. Bathrooms stopped feeling like a part of the home's beauty. The furniture didn't last, and it didn't make people feel good about their space anymore.

## OUR BACKGROUND

Before starting Belz Vanity, we spent more than 25 years working in the ceramic tile mould and die industry. Over time, we learned the art of precision, design and perfect finishing. That experience taught us how to shape ideas into reality. Using our knowledge of plastic moulding, we created moulds and dies made specially for vanities. It was our way of bringing together technology and creativity to make something truly new.

## OUR INNOVATION

Belz Vanity isn't made the usual way. Each piece is carefully built, part by part, using advanced injection moulding machines. Every section fits perfectly with screws and a smart locking system, making it strong, sturdy & easy to assemble. Our rich colour finishes give the vanities a smooth look. They turn an ordinary bathroom into a stylish space that feels fresh, modern and made to last.

## THE BEGINNING OF OUR JOURNEY

We started with just a few models. The goal was not to compete but to understand. We wanted to see if people would really accept something new. To our surprise, the response was amazing. People loved the durability, beauty and innovation we brought into their homes. Their trust became our biggest motivation to keep growing and improving with every new model we created.
