Nexora Tiles
Soft Touch Collection

DEFINING THE NEW FEEL OF MODERNITY

A breakthrough in surface technology. The Soft Touch Collection offers a sophisticated alternative to traditional gloss, prioritizing tactile comfort without compromising on architectural strength or visual depth.

Designed for the minimalist visionary, these tiles provide a seamless transition between art and function, ensuring your space feels as refined as it looks. Experience the ultimate in understated luxury.

SOFT TOUCH
COLLECTION

600x
1200mm

We believe that true luxury is a choice between brilliance and comfort. Our 600x1200mm collection is meticulously engineered in two distinct signatures: a high-definition Glossy finish that amplifies light, and a velvety Soft Touch surface that absorbs it. With a slim 9mm profile and a suite of high-performance features, these tiles offer the perfect balance of technical precision and artistic versatility for the modern architect.
